

B.Tech - Even Sem : Semester in Exam-I
Academic Year:2023-2024
22CI2001 - ADAPTIVE SOFTWARE ENGINEERING
Set No: 1

Time:		Max.Marks: 50					
S.N O	Answer All Questions	Choice	Opti ons	Mark s	CO	CO BTL	COI BTL
1.	Answer all questions:			12Ma rks	CO 1	3	2
1.A .	Describe the IEEE Definition of Software Engineering.			2Mar ks	CO 1	3	2
1.B .	State the V-Model with a neat diagram.			2Mar ks	CO 1	3	2
1.C .	Define the product and Process.			2Mar ks	CO 1	3	2
1.D .	Describe the importance of documentation in software engineering.			2Mar ks	CO 2	3	2
1.E .	Describe the uses of the Requirement Traceability matrix.			2Mar ks	CO 2	3	2
1.F.	State the difference between user stories and requirements.			2Mar ks	CO 2	3	2
2.	Answer all questions:			16Ma rks	CO 1	3	2
2.A .	Explain how evolutionary process models are used and write their strengths and weaknesses.			4Mar ks	CO 1	3	2
2.B .	Examine how spiral model is useful in real life and write its phases.			4Mar ks	CO 1	3	2
2.C .	Outline the principles of Agile Model in the process of software development.			4Mar ks	CO 2	3	2
2.D .	Compare and Contrast "Functional and Non- Functional Requirements".			4Mar ks	CO 2	3	3
3.	Answer the following:	choice Q-4		11Ma rks	CO 1	3	3
3.A .	Describe different levels of abstraction in Reverse Engineering Process.			5Mar ks	CO 1	3	2
3.B .	Assess the effectiveness of the Waterfall Process Model by offering a detailed breakdown of Its stages, accompanied by a visually appealing diagram.			6Mar ks	CO 1	3	3
4.	Answer the following:			11Ma rks	CO 1	3	3
4.A .	Describe the framework activities of Personal Software Process (PSP).			5Mar ks	CO 1	3	2
4.B .	Analyze the phases of the Unified Process Model with a comprehensive classification and detailed explanation for each phase, augmented by an Illustrative Sketch			6Mar ks	CO 1	3	3
5.	Answer the following:	choice Q-6		11Ma rks	CO 2	3	2
5.A .	Explain and justify the role played by the requirements validation in software engineering.			5Mar ks	CO 2	3	2
5.B .	Integrate insights from stakeholders and provide a comprehensive review on the detailed elicitation of requirements.			6Mar ks	CO 2	3	3
6.	Answer the following:			11Ma rks	CO 2	3	2
6.A .	Describe the difference between agile modelling and the traditional modelling.			5Mar ks	CO 2	3	2
6.B .	You're developing a health information system. Design a use case diagram that depicts the relationships between patient records, medical professionals, and medical tests. Explain the significance of use case diagram.			6Mar ks	CO 2	3	3
